A feral innovation!

Streamlined power comes to the boating season with the totally new Buster XXL which is sportier and more impressive than ever, and highly adaptable. You won't be able to tame this boat for just one use: there is a whole range of expert accessories which you can use to optimise your own XXL for the best fit with your way.

...AND TO ENJOY. CAREFREE.

A MASTERFUL TRANSFORMER

Buster puts the best experiences of a long boating season within your reach. Choose your favourite partner from a versatile collection for your summer cottage, for transport, for fishing and other hobbies. Versatile Busters take you conveniently to the most out-of-the-way waters and are easily adaptable for many applications. At the same time you get a solid package of hi-tech craftsmanship from the largest manufacturer of open aluminium boats in Europe. Buster is a carefree choice in every way!

The boats pictured may contain accessories complementing the standard equipment. Always check the contents of the package with your dealer.

MANY REASONS FOR CAREFREE BOATING

Excellent driving qualities

The aluminium hull means lightweight Buster boats can reach high speeds with lower engine power and less fuel consumption for its size class compared with competitors. Busters uniquely combine boating comfort and stability even in tough conditions. The pleasure of boating is enhanced by Buster operator consoles, the ergonomics and functionality of which in tough conditions have been given special attention.

Safety

All Buster boats under 6 metres and the new 6.35-metre Buster XXL will stay afloat even when full of water if correctly loaded. The waterproof floatation material used in the sides will keep a swamped boat afloat in the correct floating position.

The unsinkable Buster stays stable even when unevenly loaded. Boating under all weather conditions is made easier with sturdy rails, large roughened steps, roughened decking, and the blunt shape of the bow which allows you to manoeuvre close to piers.

To prevent theft, Busters come equipped with a hardened eyelet for locking and a factory engraved hull serial number.

Durability

Buster stands up to rough use and harsh environments – and it keeps its resale value. Tensile and impact-resistant marine aluminium is light and does not rust, corrode, split, rot, decay, become brittle, burn, or get waterlogged. It withstands even the most extreme temperatures, from freezing to 200°C. A proof of durability is the 6-year guarantee for Buster hulls.

Durable Buster boats keep their resale value.

Ease of Maintenance

Marine aluminium and surface treatment make Buster exceptionally easy to maintain. The hard glossy surface prevents dirt from adhering, and washing is easy with plain water. All models from Magnum to Buster M are surface-treated thoroughly on both the inside and outside.

Length 6.70 m
Beam 2.40 m
Engine recommendation 100-225 hp
Seating capacity 8

Riding high at the top of the Buster fleet, Magnum is a boat for grand experiences. Its masculine character is reflected by its handsome appearance, powerful performance and direct practicality.

Magnum's abundant accessories and its passenger and storage facilities ensure carefree enjoyment for up to eight persons. The solid construction and excellent handling mean new dependability and performance in boating even in harsh conditions with an engine up to 225 horsepower.

Length 6.35 m
Beam 2.40 m
Engine recommendation 90-150 hp
Seating capacity 7

The new Buster XXL is a miracle in spaciousness. Its carefully designed adaptability, versatile accessory options and ample storage spaces lockable with a single key bring a whole new dimension to boat use.

The ergonomics, safety and design of XXL have received special attention. The extremely spacious afterdeck gives abundantly more space for moving around, as well as many possibilities of use. In forepart, moving around is facilitated by a two-part door opening from the middle of the windshield.

In the driver's seat, extra enjoyment is offered by the sure and steady driveability, windshield defrosters, and power classification of up to 150 horsepower. Travelling comfort is offered by the spacious seating area protected from wind, and the movable and detachable seat whose body offers plenty of lockable storage space. Even the aft cover with its storage boxes are a standard feature of the XXL.

An element of practical versatility familiar from Buster X are the accessory seat boxes with their removable cushions. Depending on the purpose of use, there is a wide selection of accessories from water skiing bracket to sun mattresses.

More on the new boat on page 24.

Length 5.60 m
Beam 2.17 m
Engine recommendation 60-115 hp
Seating capacity 7

Buster XL meets all criteria for a first-rate boat for the family, recreation and hobbies. Its comfortably spacious interior and its intuitive solutions have been designed for safe and carefree companionship with up to seven persons.

Travelling comfort is increased by the excellent handling characteristics typical of Busters. XL's acceleration and smooth moves can be enjoyed with a 60-115 horsepower engine, and handling is safe and steady in all conditions.

Length 5.15 m
Beam 2.06 m
Engine recommendation 50-80 hp
Seating capacity 7

The easily adaptable Buster X with its detachable interior elements has achieved great popularity: the boat was the most sold boat in its class in the 2007 season.

Thanks to its detachable interior elements, Buster X transforms like a minivan for different uses, like transporting goods, excursions, fishing or other hobbies. The most versatile model is the C4 family version whose spaces can be altered in a matter of minutes. In addition to versatility Buster X offers all the basic strengths of the Buster range. Four persons get around fast with even the smallest 50 hp engine, and mere 60 horsepower is plenty for the needs of a large group of seven. The looks of the X are characterised by new roundness and the elegant Oceanrace Blue colour. Get to know and enjoy this boat. Carefree.

Check out the versatile interior options of Buster X on page 30.

Length 4.90 m
Beam 1.97 m
Engine recommendation 30-50 hp
Seating capacity 6

Buster L is the versatile favourite of the collection, one that takes you with steady reliability to enjoy all the summer has to offer. This reliable water-skiing or fishing buddy is equipped with seat cushions, an aft cover, and a spacious side bench which doubles as rod holding box, for example.

You can get Buster L equipped with the option of two driving consoles, as seen in the picture. Choose a 50 horsepower engine and cruise nimbly and without effort for all the top moments of the boating season!

Length 4.60 m
Beam 1.86 m
Engine recommendation 30-40 hp
Seating capacity 5

Buster M's popularity is based on simple ease and versatility of use. Its roomy open space and bearing capacity serve ideally both family excursions and demanding fishing trips.

The easily controllable M rides smoothly across the waves. Its 40 horsepower engine takes you to the best experiences on the water, carefree.

Length 4.58 m
Beam 1.88 m
Engine recommendation 20-30 hp
Seating capacity 4

Space utilisation and the standard of accessories of the Buster S represent the best traditions of the Buster range. It offers comfort for four persons as a reliable general boat and a base for a wide range of hobbies.

The steadiness and agility of the S come into their own for rowing as well as when using the 20-30 horsepower engine. Even with modest engine power and fuel consumption, the performance and driving comfort of a large boat can be achieved. Safety and practicality are increased by the sturdy foredeck which makes stepping on and off the boat easier.

In the picture: XS R.

Length 4.15 m

Beam 1.65 m

Engine recommendation

XS : 6-15 hp

XS R: 6-20 hp

Seating capacity 4

Buster XS offers you all the advantages of modern aluminium boat technology in a reasonable size. It is an unsinkable, durable and easily maintainable boat for local waters, offering safe comfort for recreation and fishing trips with 1-4 persons.

High benches ensure a good sitting posture even when rowing. The steering console of the model XS R increases boating comfort and raises the maximum engine recommendation rating from 15 to 20 horsepower.

BUSTER QUALITY FOR EVERY OCCASION

Professional users appreciate a safe, durable and easy to maintain boat which is also easy to transport on a trailer.

In professional hands the power, space and stability of the Magnum are great assets.

A carefree choice for the professional

People who get about on the moving on the water professionally know the demands that extreme conditions make on the durability and usability of a boat. This is why more and more fire and rescue services, police forces, harbours, navies, coastguards and professional fishermen choose Buster.

The powerful, spacious and excellently equipped Magnum is a reliable choice for demanding professional use, such as for harbour authorities.

A reliable and versatile partner for hobbies

The Buster collection offers the right boat for every need: from holiday homes and excursions to water-skiing, boarding, fishing and hunting. Thanks to the durability of marine aluminium, the boating season can start in the early spring just after the ice has melted, ending late in the autumn.

Fishermen have always appreciated the ease of use and versatility of Buster represented by the different optional console locations, the solid affixment of lure-fishing equipment to the marine aluminium, the optional long rod box and rod holders, and covers for protection from rain and the wind.

The roughened steps and sturdy rails of the improved Buster XXL make swimming and moving around the boat easier.

The improved Buster XXL offers power and steady handling for boarding and other sporty water hobbies.

The interior of Buster X transforms brilliantly for transport or fishing purposes.

With the durable and reliable Buster, you can freely enter all types of waters.

The spacious aft space of the Buster XXL has plenty of space for the fisherman's buddies and for a big catch.

Possessing excellent handling characteristics, the Buster X is easy to steer to the best fishing spots.

The sturdy construction and the blunt bow of Buster boats make it easier to beach on the rockiest shores and approach piers.

The agile Buster is a hunting partner with whom you can aim for the best hunting spots with no worries.

The lightness and durability of marine aluminium make trailer transport a breeze.

Pick a Buster of your choice and switch to carefree leisure!

The boats pictured may contain accessories complementing the standard equipment. Always check the contents of the package with your dealer.

DETAILS OF XXL

Buster XXL – versatile comfort

The new Buster XXL is a versatile miracle of spaciousness, whose excellent adaptability, multilevel accessory options and ample storage spaces lockable with a single key give a whole new dimension to boating. The design of the XXL devotes special attention to the safety, ergonomics and comfort of boating.

Expand your territory. Carefree.

The market leader Buster offers steady boating experiences for changing conditions. Among the newest aces in the collection is the feral Buster XXL.

Aim for the nearest Buster dealer – and set yourself free on the wildest waters.

- ① The two part door located between the consoles makes it easy and safe to move around in the fore. The top section of the door opens in front of the map reader's seat and the bottom section opens inwards.
- ② The sliding seat of the Buster XXL can be taken off completely if necessary. Moved into the fore, it offers an easy rest and sunning platform. The seat also functions as a large lockable storage space.
- ③ The roughened aluminium steps are not slippery, even in wet weather. The sturdy rails make moving about the boat easier.
- ④ The bow also opens up into a roomy, lockable storage space.
- ⑤ The cap of the fuel tank is hidden from view under the lid of the lockable anchor box. As an accessory, a lock can be added to the cap of the fuel tank.
- ⑥ The windshield defrosters at the bottom edge of the windshield keep the windshield clear during rainy and cold weather. Thanks to serialised Abloy locks, the console with sliding door can be locked with the same key as all the other locks on the boat.

- ⑦ The standard cover box facilitates the easy and quick application of the cover.
- ⑧ As an accessory, spacious storage boxes which also function as seats can be placed in the fore of the XXL and behind the bucket seats.
- ⑨ The storage box in floor of the boat holds rods and paddles as well as rests through the floor hatch.
- ⑩ There are two swimming platforms in the aft from which engine oil changes and other maintenance procedure can be handily performed.

The steering console contains a lockable storage and installing space for electronics which fits a GPS-positioning or sonar instrument. The display can be lowered below the deck after use and raised again when needed.

See the standard and optional equipment of Buster models on page 28.

You can find equipment and accessories for older models in the Buster accessory catalogue. You can get this from your Buster dealer or from www.buster.fi.

BUSTER COVER PROTECTS FROM THE RAIN AND THE WIND

The covers for individual Buster models are easily cleanable and easy to use during a trip, in harbour or during transport. In addition to passengers, they protect the cargo and electronics of a boat left at the pier from rain, wind and sun. At least one cover model is available for each Buster boat.

The Magnum, the new XXL and XL are equipped with a cover box as standard. A fixed cover holder is also part of the second cover version for Buster X.

Magnum
5-6 persons can fit comfortably under the Magnum cover. The cover is divisible in two lengthwise, and adjusts conveniently to different situations and weather conditions.

XXL
The cover **included as standard** with the new Buster XXL conforms to the streamlined design of the boat. The wide window surfaces and the option to open up window sections improve travelling and driving comfort. From the driver's seat, a roof hatch can be opened in the cover.

XL
The cover is divisible in two lengthwise, and includes a modern spring-operated door curtain.

X
The versatility of the Buster X is reflected on its cover. Thanks to the detachable sides

and rollaway rear wall, the cover can be used as a sun roof to protect the seating area from sunshine.

There are two cover versions available for Buster X. One includes a cover box serving as a back rest and integrated to the back seat, the other is a traditional model utilising a cover bag.

L
The Buster L version with two consoles is available with a handy aft cover which protects the comfortable seating area.

L cover in the position covering the whole inner room of the boat. The front section of the cover, divisible lengthwise, also serves as a windshield during a cruise.

M
Like all the covers, the rear cover of Buster M can be used during a cruise. Large win-

dow areas ensure good visibility and lighting for the seating area.

M
M cover in the harbour position. The cover opens at the bow as well, which facilitates embarking from the pier.

S
The cover of Buster S can cover a boat left on a trailer and at the pier, for example. The cover can be opened from both front and back.

XS
Buster XS too is available with a full cover openable from both front and back. In addition to rain, it protects the boat from leaves and other loose litter.
